

Care Guide

There are ways to keep your clothes looking new for a longer period of time by applying the following rules during washing:

Always read the care label inserted into the garment and follow the washing instructions accordingly.

Do not overload your washing machine.

Sort your washing according to similar wash care instructions and similar colours.

Do not leave garments with white and coloured panels soaking for too long a period.

Turn garments inside out before washing especially jeans, printed or embroidered garments and garments with embellishments on them i.e. beads, sequins etc.

Wash garments at correct temperature. If unsure, wash at a lower temperature rather than a higher temperature.

Do not use too much detergent.

Do not use fabric detergents containing bleach.

When hand washing garments, rinse until water runs clear.

Do not spin any wool, acetate, viscose or mix garments.

Dry as stated on the washing instructions.

Do not tumble dry garments unless stated on washing instruction.
